## **Development of Intermodal Transport in Slovenia**

Dear Madame or Sir,

Slovenia has made a considerable progress with respect to intermodal transport in the last years:

- Ljubljana has been positioned as gateway terminal between Western and South-Eastern European countries,
- The Port of Koper demonstrated almost double digit growth rates and the rail share (60%) in container hinterland transport ranks top in Europe,
- Different railways and intermodal operators are providing competitive services.

Time to be proud! Time to be satisfied. Time to lean back? Or time for a further growth path?

These and other items should be discussed with relevant actors of the intermodal sector in Slovenia and we kindly invite you to

- discuss the recent achievements, status quo and future prospects of intermodal transport in Slovenia,
- achieve a consent about the growth perspective and coordinate regulative, financial and operational measures that will be necessary to foster the increase of intermodal rail services,
- identify relevant actors and time horizons for the realization of the intermodal strategy and
- summarize a "road map on intermodal transport" in Slovenia.

Jointly with the project partners Slovenske Železnice and Adriakombi we kindly invite you to participate in the workshop on

**23. April 2013, 10:00-16:00**

**In The CITY HOTEL Ljubljana, Dalmatinova 15, 1000 Ljubljana Hotel, Slovenia**

In order to facilitate organizing the meeting we would like you to register by responding to this invitation e-mail.

The activities are co-financed by the European Commission in the framework of the Marco Polo Common Learning Action "COSMOS" ([www.intermodal-cosmos.eu](http://www.intermodal-cosmos.eu)).

Hoping to meet you in Ljubljana we remain with  
kind regards

COSMOS Project Co-ordinator  
KombiConsult GmbH
