Development of Intermodal Transport in the Czech Republic

Dear Madame or Sir,

The Czech Republic has made a considerable progress with respect to intermodal transport in the last years:

- Different railways and intermodal operators are providing competitive services;
- The country is well connected to the major northern and western Seaports with frequent shuttle trains proving the backbone of intermodal transport;
- Continental intermodal transport is developing steadily;
- The total combined transport has increased by 7% (2011/2010)

Time to be proud! Time to be satisfied. Time to lean back? Or time for a further growth path?

These and other items should be discussed with relevant actors of the intermodal sector in the Czech Republic and we kindly invite you to

- discuss the recent achievements, status quo and future prospects of intermodal transport in Czech Republic,
- achieve a consent about the growth perspective and coordinate regulative, financial and operational measures that will be necessary to foster the increase of intermodal rail services,
- identify relevant actors and time horizons for the realization of the intermodal strategy and
- summarize a "road map on intermodal transport" in the Czech Republic.

Jointly with the project partner Bohemiakombi we kindly invite you to participate in the workshop on

19 September 2013, 10:00-16:00

in the Ministry of Transport, nábřeží L.Svobody 1222/12, 110 15, Praha 1

In order to facilitate organizing the meeting we would like you to **register by responding to this invitation e-mail until end of June 2013**. Only registered persons will be accepted for participating the meeting.

The activities are co-financed by the European Commission in the framework of the Marco Polo Common Learning Action "COSMOS" (www.intermodal-cosmos.eu).

For any further questions or recommendations on the project or the meeting please do not hesitate to contact me.

Hoping to meet you in Praha we remain with
kind regards

COSMOS Project Co-ordinator
KombiConsult GmbH
